

FOR IMMEDIATE RELEASE

The Invicta Subaqua Collection

Led with expert engineering, no feat or occasion will ever be too great for Invicta's Subaqua to handle. The sheer magnitude of this mighty timepiece is superbly executed with surgical-grade stainless steel, Swiss movements and multiple color options of ionic plating. Managing up to 500 meters of water, finished off with a unidirectional rotating bezel, and integrated shock resistance- the Invicta Subaqua is the diver definitive in negotiating any adventure by land or by sea.

FOR IMMEDIATE RELEASE

Invicta Subaqua Chronograph

The might of the Invicta Subaqua and the mastery of an Invicta Reserve merge to form the Invicta Subaqua Reserve Chronograph. Delivering a truly influential moment in time, an eye-catching complicated exterior match an equally impressive complex interior.

The signature, solid stainless steel case, features an exhibition case-back and houses a remarkable Professional Swiss Quartz movement. The stunning textured details of the dial and crown highlight the accomplished design elements of this timepiece.
