A NAUTICAL ENSEMBLE

FOR IMMEDIATE RELEASE

The Invicta Reserve Thunderbolt

Hollywood, FLA - The Invicta Reserve Thunderbolt elevates time to another sphere. Mastering the complexity of engineering and design, The Invicta Reserve Thunderbolt makes a formidable impact.

Forged from solid stainless steel the model is led with the ultimate precision of a Swiss movement. The 54.5mm case diameter is highlighted with impressive details in design and functionality. The rotating bezel boasts the signature Bolt cable. However, the cable on this model is a bold 5mm and is the maximum thickness that the circumference and tension can hold.

The lug design and structure are specifically inspired by scuba dive equipment. Equipped with a screw down crown and screw down pushers, the timepiece is water resistant up to 500 meters.

Prepared for any activity or occasion, the Invicta Reserve Thunderbolt, where myth becomes reality.

About Invicta Watch Group

Led by innovation and nurtured with the consistency of quality and brand personality, the forward thinking energy of The Invicta Watch Group continues its brazen journey. The long held belief that supremely crafted timepieces can be offered for modest sums is the founding principle of Invicta and that ideology still resides at the core of all Invicta creations. In setting a premise of exceptional standards, Invicta maintains their objective by successfully satisfying consumers and collectors alike at any price point.
